By Yourself

Podunk

I know you want to fly
I know you want to reach out and touch the sky
I know you will survive
I know, but you're heart won't let you right nowI know you want to live
I know you want to reach out and touch the sun
I know you want to give
I know, but your mind won't let you right nowI know you want to believe
But all that's inside of you
Keeps holding on to you
I know you want some peace
But all that's surrounds you now
Keeps holding on somehow
