Sleep

Lagwagon

Hi it's, me i'm bored again, all is well i'm not insane
I've been drunk for seven days, everything is fine
I made some friends, broke the ice, then i ate some bread and cheese
to gain some weight, keep me warm everything's o.k.[chorus]
It's me delivering psychosis, over the phone to you
I color your world blue, ten thousand miles from you
I'm sinking all alone, treading new waters, Were is my buoyThe van smells like a dirty sock, everyone has got the flu
I'd rather be sick of you, I'd rather be asleep[Chorus 2]
It's me delivering psychosis, over the phone to you
I color your world blue, ten thousand miles from you
I'm sinking all alone, treading new waters, Im missing my buoyWhen I get home, the band will have, it's first hit song
you and I, will buy some rings, and a suburban home
I'll bring home, the bacon bits, we'll make our parents grandparents
I'll take you out, to breakfast at night, and then well go to sleep
