

# Of Course We Will

## Ultimate Fakebook

Pull the covers up, turn out the lights  
Believe me, it'll be alright  
I know you had it in your sights  
But still you can't stay up all night  
Let down - you're spun around  
You just can't think about that now  
'Cause it's never quite like the plans your head dreams up  
And I'm telling you know that...[Chorus]  
We could dream all night here baby 'bout our time in the sun  
It takes a lot to get things done, but of course we will  
And we can't spend our time on something that might not ever come  
So just sit back 'cause this I know: of course we will  
So you've tried to hold it in  
But still it doesn't help when they say  
"Hey get up! Sit down again!"  
I guess that's how it goes and  
There's no sound - you're spun around  
You just can't let it get you down  
'Cause that movie that's called "Life Sucks" stars everyone  
And you're a bit part, girl[Chorus]
