

# Tomorrow and Forever

## One Step Away

You will stay there  
I will be there too  
Along with you  
Tomorrow and forever And now I see  
In your green eyes  
Staring at me  
Tomorrow and forever  
Tomorrow and forever Im going just as fast as I can  
To get to your door across town  
Youre always on my mind  
I promise you that  
Well take a walk in the summer breeze  
And watch a scary movie on TV  
Its the perfect night  
Everything is just right My pocket plays a happy tune  
I let you know that Ill be there soon  
Ill see your pretty face  
I just cant wait  
I just cant wait You will stay there  
I will be there too  
Along with you  
Tomorrow and forever And now I see  
In your green eyes  
Staring at me  
Tomorrow and forever  
Tomorrow and forever  
As the sun sets we get to the beach  
We lay on towels with the sand in our feet  
We both fall asleep  
You mean everything to me  
And now its time to say goodnight  
I give you a kiss and I hold you tight  
But the two of us know  
Theres always tomorrow  
Tomorrow and forever You will stay there  
I will be there too  
Along with you  
Tomorrow and forever And now I see  
In your green eyes

Staring at me  
Tomorrow and forever  
Tomorrow and foreveeeeer Every thunderstorm that I sleep through  
Reminds me of the times Ive spent with you  
And when the lights go out  
My mind races following my dreams  
As my eyes start to close  
Youre right there with me  
Youre right there with me You will stay there  
I will be there too  
Along with you  
Tomorrow and forever And now I see  
In your green eyes  
Staring at me  
Tomorrow and forever  
Tomorrow and forever
