24Seven

Boogie Pimps

Your eyes I could not forget
You swept me of me feet,
Without you I'm not complete
You know I felt so blue
Until the day I met you
Now I can run a mile
Just to see you smile
Our love is electric power,
Every minute it grows stronger
Turn my soul into fire
And I can't take this any longer
Chorus:
24Seven and I'm in heaven,
When you touch me I burst
You take me into Universe
24Seven and I'm in heaven
It brings me such delight
To love you in the candle light
So here I am for you
You make me loose control
Of my body and my soul
I fall deep into trance
In this crazy romance
You took me by surprise
And now I'm in paradise
You make my life supreme,
'Cause you're the answer to my dreams
Our love is electric power,
Every minute it grows stronger
Turn my soul into fire
And I can't take this any longer
Chorus
When you kiss me so gently
I want it to last forever
So come on release your feelings,
Come closer let me love you,
'Cause it's now or never
Chorus
