The Bump

Commodores

I got a lust for life
And a dangerous mind
In my trail of dust
Who knows what you'll find
I can take a tree
And tear it from its roots
And if you see me
I suggest you move
We're full grown men
But we act like kids
We'll face the music
Next time we roll in
Give me a spark (give him a spark)
You'll get an atom bomb (you'll get an atom bomb)
Give me some pills (give him some pills)
When I can't stand up (when he can't stand up)
I'm at your function (he's at your function)
And I'm an animal (he's an animal)
I'm in your town (he's in your town)
I've got a warrant out!

We're full grown men
But we act like kids
We'll face the music
Next time we roll in
I've got a name (he's got a name)
They call me The Bump (they call him The Bump)
One night with me (one night with him)
Is gonna mess you up (is gonna mess you up)
I saw the light (he saw the light)
Then I ran like a fool (he ran like a fool)
I'm a drunken devil (he's a drunken devil)
I'm the King of Croon
We're full grown men
But we act like kids
We'll face the music
Next time we roll in
We're full grown men
But we act like kids

We'll face the music
Next time we roll in
We'll face the music
Next time we roll in
