

Thru Love

Kindred the Family Soul

(Fatin)

Yeah, I gotta admit
It doesn't really seem like it's been this long
But it turned out better than we thought
the naysayers...proved them wrong
Cause we upheld
the promises that we made
The sun it shines on us
But people try to throw their shade
But with a son a two daughters later
seven years deep like Will and Jaida
Giving all praises to The Creator Because I know He's greater
than anything than we could ever do
and none of this would be possible
without you

(Chorus)

Thru Love
and ease
and pain
yes we held each other thru the pouring rain
We laugh, We cry, We fight TOGETHER

(AJa)

So many said we wouldn't make it together
But still, some say it's gonna last forever
But everyday we try to make it better
Flying over all this stormy weather
You told
Me you
Would hold
Me down
Although I've rarely ever shown it
I know you love me and I've always known it
Ooooooh, there's nothing left to prove
There's only one for me
And I'm the one for you

(Chorus)

Maybe weâ€™ll come into your life
But one will battle to this life
Iâ€™ve found the love of my life
In you, In you
I see the future in your eyes
Stick with me long enough to make it right
The joy, the laughter and the cries.

(Chorus)
