

Love Thy Neighbour

Morning Parade

The neighbors are at it again
And kisses on the lips and nights in the scene
The sound of silence is all
The violence is depressing
You mourn my eyes Not slit my life
Not slit my life
Till it's done, beyond
Not slit my life
Let's stop this conversation
That's brave, your knees to stop
This is how it all imports
I wanna get my heart arrest
You'll get a reading for the cockpit
This will not stop the other So I'm gonna build a wall
And keep it with traditional rules
Gonna start a war
And I'm gonna get revenge, with everything that I own
I will not hit this caving in
Not slit my life
Not slit my life
Till it's done, beyond
Not slit my life
