

Rumours (Long Version)

Timex Social Club

How do rumours get started they're started by jealous people and
they get mad seeing something they had and somebody else is holding
they tell me that temptation is very hard to resist
these wicked women ooh they just persist
maybe you think it's cute but girl I'm not impressed
I tell you one time only with my business please don't mess
When you look at all these rumours surrounding me every day
I just need some time some time to get away from
from all these rumours I can't take it no more
my best friend said there's one out now 'bout me and the girl next door
Hear that one about Tina some say she's much too loose
that came straight from a guy who claims he's tasting her juice
did you hear that one about Michael some say he must be gay
I try to argue but they said if he was straight he wouldn't move that way
did you hear that one about Susan some say she's just a tease
in a camisole she's six feet tall she'll knock you to your knees
When you look at all these rumours surrounding me every day
I just need some time some time to get away from
from all these rumours I can't take it no more
my best friend said there's one out now 'bout me and the girl next door
I can't go no place without somebody pointing a finger
I can't shoe my face 'cause when it comes to rumours I'm a dead ringer
it seems from rumours I just can't get away
I bet there'll even be rumours floating around on Judgement Day
I'll think I'll write my congressman and tell him to pass a bill
for the next time they catch somebody starting rumours shoot to kill
When you look at all these rumours surrounding me every day
I just need some time some time to get away from
from all these rumours I can't take it no more
my best friend said there's one out now 'bout me and the girl next door
What's mine is mine I ain't got time for rumours in my life
I'm a man who thinks not a man who drinks so please let me live my life
what's mine is mine I ain't got time for rumours in my life
I'm a man who thinks not a man who drinks so please let me live my life
what's mine is mine I ain't got time for rumours in my life
I'm a man who thinks not a man who drinks so please let me live my life
When you look at all these rumours surrounding me every day
I just need some time some time to get away from
from all these rumours I can't take it no more

my best friend said there's one out now 'bout me and the girl next door
Look at all these rumours surrounding me every day
I just need some time some time to get away from
from all these rumours I can't take it no more
my best friend said there's one out now 'bout me and the girl next door
