

# Good Doctor

Robbie Williams

You alright star  
No star  
You alright star  
No star  
You alright star  
No star  
I don't feel proper  
I went to the doctor to get a prescription  
I told him little fact and lots of fiction  
About a bad back that I ain't got  
He tried to sell me faith healing I think not  
I want Xanax, Vicadin and Oxycotton  
Funky fill the form out so I can drop em?  
I've got all these demons and I can't stop em?  
To tell you the truth Doc, I might have a problem  
Robert Williams take one Adoral  
With water in the morning  
As if I'm goin' to take one tablet  
I'm Keith Moon Dick head  
He said this one's to take you up  
He said this one's to take you down  
When I take um I don't feel sound  
And I look rather round  
You alright star  
No star  
You alright star  
No star  
You alright star  
Five star  
I don't feel proper  
You know what Doc it's alright and all  
I just heart me leg it's not terminal  
But a pain killer could help for whats wrong with my knee  
And I'm a little bit down from too much tea  
Got me own collection can't get an erection  
If I take 'em too long they'll fuck me complexion  
That's right If I take 'em for like more than a few days  
I get that haunted look  
Give me loads of pills

Give me loads of pills  
Give me loads of pills  
Give me loads of pills  
He said this one's to take you up  
He said this one's to take you down  
When I take um I don't feel sound  
And I look rather round  
You alright star  
No star  
You alright star  
No star  
You alright star  
Five star  
I don't feel proper  
Now if you go to the barber shop long enough  
Then you're goina' get a hair cut  
And if go to the doctors regular, then you gots to be a fuck up  
Well ,I've got 5 or 6 if I'm at a loss  
Do I have a history of drug abuse, well, I never tick that box  
And I now that some of you are going to be really really cross  
The drug's don't work, prescription pills are boss  
The glory days are gone and we've all stopped havin' it  
No raves no more just bedside cabinet  
Sleepers are great but don't start dabbing it  
The world carries on spinning we're mad in it  
He said this one's to take you up  
He said this one's to take you down  
When I take um I don't feel sound  
And I look rather round  
You alright star  
No star  
You alright star  
No star  
You alright star  
Five star  
I don't feel proper  
You alright star  
No star  
Are you five star?  
No star  
Are you alright star  
Five star  
I don't feel proper  
Know what doc  
It's not like I've been doin' any research or anything

But if you can give me any of the following pills  
I'd be very very grateful 'cos I feel poorly  
So that's Codeine, Morphine, Opium  
Methadone, Menocrabedene, Hydroanoxycodine  
Anolodene, Buprenopheine, ButroPhenol  
Adorel, Dorel, work with me antidepressants  
But not Saint Johns Wort 'cos I can get that at boots
