

Funny Feeling

Meat Beat Manifesto

I feel it in the ground, I sit in the trees
I'm picking up on the frequencies
Beat from the hip hop
True to the bebopD'ya know what I mean?
Triggered by a laser beam
Listening to, "A Love Supreme" It's a funny feeling
I wonder if it has a meaning
You know it's a funny feeling
Now that my wounds are healing It's a funny feeling
I wonder if it has a meaning
You know it's a funny feeling
Now that my wounds are healing Only later did I see what it did to me
Only later did I see what it did to me
Only later did I see what it did to me
Only later did I see what it did to me What it did to me, what it did to me
What it did to me, what it did to me
What it did to me, what it did to me [Incomprehensible]
[Incomprehensible]
[Incomprehensible]
