I went... outside... to catch... the snow
Ice is raining
Ice is raining
Ice is raining (the snow)
Ice is raining
I went outside
To catch the snow
How far will I go
to protect my hide
protect my
will i go protect my hide
protect my
I went...outside... to catch.... the snow
Ice is raining
Ice is raining
Ice is raining (the snow)
Ice is raining
I went outside
To catch the snow
How far will I go
to protect my hide
will i go protect my (hide)
will i go protect my hide
will i go protect my (hide)
As seal myself inside
the zippers catch my skin
And as I waddle towards the doorway
a freezer hits me
And as i stumble from my house
I reach down for the sled
and as I start to shape my weapon
A cold one hits me
I turn around
and walk back home (repeat until end)
