

# Friend Like You

**Joshua Radin**

I like the way you're not afraid  
You've got the world planned in your mind  
People say you cannot do it  
But they don't know a friend like you  
The girl you love has gone away  
Still too young to know her heart  
She'll return her love renewed  
Cause she'll never find a friend like you  
When I had no one to call  
All the world had shut me down  
I showed up at your door so blue  
Thank God I had a friend like you  
Any times I've gone without  
A home, a meal, a pair of shoes  
If you had three you'd give me two  
There ain't no other friend like you
