

# It's the Messiah

Kenny Rogers

It's the Messiah It must have been something  
Being born in a manger  
With the sheep from the fields  
And stars shining over your head It must have been something  
Seeing three wise men  
On their knees before a newborn  
With their eyes all aglow 'Cause in their hearts they know Chorus  
It's the Messiah  
He's come at last  
It's the Messiah  
He's come at last It must have been something  
Speaking the word of your Father  
With the promise of life  
And peace, forever It must have been something  
Walking the streets of Jerusalem  
With the sins of the world  
On the innocence of a lamb  
But soon everyone will know Chorus  
It's the Messiah  
He's come at last  
It's the Messiah  
He's with us at last It's the Messiah  
He's come at last  
It's the Messiah  
He's with us at last
