

I Never Said I Was In Love

Joel Crouse

After all those good times
Thought everything was just fine
We were so perfect togetherHer heart was laid wide open
But words were left unspoken
Looking back now I knew betterA woman can only wait for so long
And than one day that feeling is goneI never said I was in love
I never looked her in the eyes and really opened up
And those precious moments when we touched
It must've hurt so much
'Cause I never said I was in loveToday I saw her smiling
Half sweet half wild as I was
Waltzing through a cafÃ© window
And he guy who was with her
Leaned over and kissed her
And whispered something to her God knows
I can say I didn't have my chance
But I did let her slip right trough my handsI never said I was in love
I never looked her in the eyes and really opened up
And those precious moments when we touched
It must've hurt so much
'Cause I never said I was in loveI never said I was in love
But I was
