

# So Called Friend (live)

## Porcupine Tree

Lip read, a mountain stream, fibers in the car  
Shut down, a cheerless a town, a head rolls in the park  
Once seen my libertine undresses in the dark  
She puts her love inside to break us both apart With you I felt brand new, you opened up the sky  
What need to punish me with surgery and lies?  
Sleep well my so called friend, a virus in your heart  
She bends, my so called friend and rips my life apart In sound, escape is found from carving out the day  
My gift a weight that lifts, my eyes give me away  
You tell me all the things you know I want to hear  
You stain the sub terrain with sarin gas and fear What kind of friend are you?  
What kind of friend are you?  
You're so cold  
What kind of friend are you?  
What kind of friend are you?  
So Called Friend
