

Die By My Hand

Coroner

Shining metal, arc of light
Red eyes, smell of fear
Deep cut, red stream
On white skin, in slow motion
Stop time, close your lips
Keep the word, lay down and sleep
With bleeding heart, I'll take you away
Save you from the claws of time
Die by my hand
Die by my hand
Now you are a crystal rose
Frozen for eternity
Down on my knees, caress your body
Inside my head, in slow motion
Stop time, close your lips
Keep the word, lay down and sleep
With bleeding heart, I'll take you away
Save you from the claws of time
Die by my hand
Die by my hand
Die by my hand
