

Skin Tight

Stereo Starboy

When you get tired
Of holding me tight
Remember it's our state of life
When we come down
Off our high for the night
You don't let goAnd if you're feeling too close
Then we doing alright
Put you on my clothes
Take you out tonight
Take you out tonightYou're so skin tight
You're never close enough
You're so skin tight
Wrap me in your love
You're so skin tightNothing else sliding
Between you and me
What's in bionic?
We'll always beSurrounding each other
For eternity
And we won't let goSo it gets a little hot
But the temperatures right
I'll take everything you got
'Cause you're always in my sight
Yeah, you're always in my sightYou're so skin tight
You're never close enough
You're so skin tight
Wrap me in your loveYou're so skin tight
You fit me like a glove
You're so skin tight
You're never close enoughAnything less
And you'd be too far away
I can't feel it back
I can't feel it back
I can't feel it backSkin tight
Fit me like a glove
Skin tight
Wrap me in your love'Cause you're skin tight
Fit me like a glove
Skin tight
Wrap me in your love
