

The Final Incantation

Ahola

Come with me I'll be your guide
These are the signs of our times
What you see
I'll show you the fear and the pain
in the eyes of our world
no earthly heaven waits for you
You will never ascend we are the same
Don't recite The Final Incantation
Far from your tide I relate, I reside
So, heed this warning this warning of mine
Do not twist hands of time
The pain and the sorrow you flee
They still reign the earth
Your hunger for power you'd meet
it's all at your feet We are the same
Don't recite The Final Incantation
You want to live again my friend
and studied the occult
You wish to be risen from grave
and hear us call your name
This will be in vain in the end
You will never ascend
We are the same
Don't recite The Final Incantation
