Nobody's Real

Powerman 5000

Scary monsters and super peeps

The more you dream the less you sleep

Life as you know it has gone away

Unbound, unwound, who's here to stay, all right! Nobody's real but they're willing to let you know

Nobody's real but they'll feel it tonight

(Feel it tonight)

Nobody's real but they're willing to let you go

Nobody's real but they'll feel itNobody's realCould you predict, could you foresee?

Artificial by necessity

Rockets and robots can save your life

When you don't care about what's really so vile, all right! Nobody's real but they're willing to let you know

Nobody's real but they'll feel it tonight

(Feel it tonight)

Nobody's real but they're willing to let you go

Nobody's real but they'll feel itAll right

All right

All rightHow do you sleep with the time that's left you?

It's all been done there's no need for the rescue

So let's just get out, I swear there's no doubt

You can't be ready 'cause there's nothing left to do, okay! Nobody's real but they're willing to let you know

Nobody's real but they'll feel it tonight

(Feel it tonight)

Nobody's real but they're willing to let you go

Nobody's real but they'll feel it

(Feel it tonight)Nobody's real but they're willing to let you know

Nobody's real but they'll feel it tonight

(Feel it tonight)

Nobody's real but they're willing to let you go

Nobody's real but they'll feel itNobody's real

Nobody's real
