

Show Me Something New

Shout Out Louds

You and I
Have a hard thing to describe
You have so much to live for
While I am just dying to stay alive You and I
Have something you shouldn't try
You have an eye for fashion, darlin'
I'm sitting in my room and let the disc go by So much to live for Radio daylight, radio dark
Radio daylight, radio dark
Show me something new
Show me something new
Show me something new
Show me something new You say things
I've only read in books
I been stuck here for ages
While you get younger and younger So much to live for Radio daylight, radio dark
Radio daylight, radio dark
Show me something new
Show me something new
Show me something new
Show me something new Radio daylight, radio dark
Radio darkness and radio silent
Show me something new
Show me something new
Show me something new
Show me something new So much to live for Radio daylight, radio dark
Radio daylight, radio dark
Show me something new
Show me something new
Show me something new
Show me something new Show me something new
Show me something new
Show me something new
