Ready or Not

The Lightning Seeds

You know I can't stay home
With all this time to kill
You know I can't sit still tonight
I've gotta make some noise
I'm jumping up and down
I've got to get out now
I want to shout out loud
Oh you make me feel alright
It's like the tippermost, toppermost high
Oh it's you, you do
Crack up your face and give us a smile
Because tonight I just want to go wild
I've got a million thoughts and when I've thought them all
I'll find a million more tonight
And when I'm feeling sad
I know it's such a drag
And then I get so mad
And then I feel so bad
Oh you make me feel alright
It's like the tippermost, toppermost high
Oh it's you, you do
Ready or not
Here we go till we drop
Don't be square
Fix your face and grow your hair

Oh you make me feel alright
It's like the tippermost, toppermost high
Cause it's you, you, you
Ready or not
Here we go till we drop
Don't be square
Fix your face and grow your hair
Here, now, anywhere
