

# Thinking It Over

## Army of Me

You are time, you are time to see  
Who you are and what you want from me ?  
You are life, you are life to be a chorus  
With nice little harmonies  
You thinking it over, thinking it over  
You thinking it over, thinking it over  
Well, it sure sounds like you could plan  
Like you could plan to be  
Remember when, remember when we went  
To see Dan after the accident  
For one day, for one day it seemed that we were  
We were almost family, love  
You thinking it over, thinking it over  
You're always thinking it over, thinking it over  
Well, it sure sounds like you could plan  
Like you could plan to be  
You'll just like me, I do the same I just think and think  
I can't relate to the feeling that you going crazy  
I even love to ease you hourly whatever it takes  
It's a circle that we can't escape  
And she get's so tired in any place  
Well, it sure sounds like you could plan  
It sure sounds like you're pretty good to all  
It sure sounds like you could plan to be  
Love, love, love, love  
Love, love, love, love
