

# Funeral Fog (Live in Zeitz)

## Mayhem

Every time this year  
this dark fog will appear  
up from the tombs it comes  
to take one more life that  
can be near.

In the middle of transylvania  
All natural life has for a long  
time ago gone, its thin and so  
beautiful but also so dark and  
mysterious.

Once again the priest is messing  
may the god bless us all.

The fog is here again  
that'll complete this funeral.

From a place empty of life.

Only dead trees are growing here  
as it comes from a far

Only dead trees are growing here

.....Funeral Fog
