

# I Will Try

## Insted

I put forth an effort in a time of hate and greed.

Now we must realize togetherness is what we need.

You say I won't - I say that I will.

You say I can't - I say I will try.

Complaining or pointing fingers at problems we face today is such a terrible habit and by no means the way.

You say I won't - I say that I will.

You say I can't - I say I will try.

Why do we turn away with so many in fear?

Giving, caring, and striving aren't thoughts but actions taken here.

You say I won't - I say that I will.

You say I can't - I say I will try
