

Caligula's Senate

Mortimer Nova

millions will follow the orchid
when the flock follows their shepard
it's not feeding, it's not feeding your mind
it's not feeding, it's not feeding your mind
once believing, once believing inside
it's not feeding, it's not feeding your mind and we know
half below
where we go
and we show too many placate the order
and fall head first in the water
it's not feeding, it's not feeding your mind
it's not feeding, it's not feeding your mind
once believing, once believing inside and we know
half below
where we go
and we show naked and cold liste noire
enfin
ca va sans dire
