

Once It's Gotcha

[Santana](#)

One taste
That ain't so much
You think you'll be safe from her touchShe calls
You can't hide
Your back's to the wall, the wall's on fireOh, when her music starts to play
Oh, you could dance your life away.Once it's gotcha, never set you back down
Once it's gotcha, you'll lose your head in the cloudsSweet dreams
Of her kiss
No heaven could be quite like thisYour love
Runs so strong
You can't get enough, right or wrongOh, when her music starts to play
Oh, you could dance your life away
