I Think I'm Gonna Live Forever

[Merle Haggard](#)

When you first left me baby
I thought I would surely lose my mind
Every day of life was just another day gone byWell, you really had me down
In a deep depression
I wanted real bad just to crawl off and dieBut now I think I'm gonna live forever
Hey dyin' ain't on my list of things to do
I think I'm gonna live forever
Hey, it feels so good just to be out of love with youHey babe, you left me hangin'
Just tryin' to aggravate me all the way
And you got it done just the way you always doBut all you really did
Was aggravate me
'Cause I got my health and I got over youAnd now I think I'm gonna live forever
Hey dyin' ain't on my list of things to do
I think I'm gonna live forever
Hey, it feels so good just to be out of love with you
