

# Blaze

## The Digital Blonde

(for nights, and days we blaze)

Inhale, don't it feel good?  
Pass it around so we all could  
Be on the same plain, I dwell amongst the clouds  
Dream of other styles, captivate, (meditate)  
Open a bag that hasn't been touched  
A pile of bud, a sack of blunts  
Get backwoods to get back, good  
Fools

Number one cash drop  
Five g's to drop  
With no seeds to pop,  
Time to recop,  
Throw the stress in the trash can  
As we laughin'  
At the afghan  
Of the herb I'm a fan  
T-h-c, keep it all in me  
Cant you see I'm  
Gonna get some  
Bubble gum  
Been around the world like puffy  
Puffin in exotic hot spots  
(in exotic pot spots)

Spit from heaven above, hourly dove  
She started from the seed to sex the female  
Couldn't cut her, couldn't taste her till the hairs was half pale  
Trade affiliated  
Chillin' 96 degrees in the shade faded  
And god bless my  
D-j Ty  
Keepin' my dubs wise  
Pockets broke in size  
Haterism on the rise  
(no joke, man)

Lacin' up, token' herbals, token' verbals

Fuzzy like gerbals  
Off the plant I pick it,  
To the paper I stick it,  
Fine lime fruity smell makes even straights wanna kick it,  
Taste it,  
Better organically grown, sun basted  
I go batty batty batty  
Burnt seats in the caddy  
Due to 320 hollow florescent sodium  
Clipped and transplanted  
Females, have your eyes slanted  
Iris burgundy,  
Phasing in and out  
With lots of laughs and a couple of blunts

Up the charts I'm scalin',  
I got the bomb for you,  
There's no need for hatin'  
I got nugs you can hug like pimps  
It don't mean a thing to me  
Just don't double clutch,  
Pass the stuff I know you had enough  
Gettin' all freaky and stuff  
Trees for breakfast, trees for lunch  
Rockin' weed, kool aid punch, Nestle crunch  
Crunch buds  
Lots of love and peace sign  
I feel fine

(for nights and days we blaze)

Hella zoned, hella blown  
Hit up my man on the telephone  
Fried, sky high  
Bake for the day, fry now pay later  
Comin' up on the superb herb  
Flowers,  
T-h-c powers  
Got me higher than sears towers
