

The Bridge (EP Version)

Cactus World News

I, within walking distance of your heart
I'm just within earshot to a fresher start
I get the feeling that somebody else is thinking about me
I'm this close I can touch it with my hands
Going up and over over the bridge
Springtide will lift me take me across
Going up and over over the bridge
Springtide will lift me take me across
I'm looking down and I should be collapsing
The earth underneath has long since opened up
Did you see me falling? You've seen me die in my own way
When I give up you always go on
Going up and over over the bridge
Springtide will lift me take me across
Going up and over over the bridge
Springtide will lift me take me across
Bring down the rains of heaven here
Bring down the rains of heaven on my life
Down. The comeback is so wonderful
Going up and over over the bridge
Springtide will lift me take me across
Going up and over over the bridge
Springtide will lift me take me across
La, la-la-la, la-la, la, la-la-la
I will cross to the other side(guitar solo)
Going up and over over the bridge
Springtide will lift me take me across
Going up and over over the bridge
Springtide will lift me take me across
Going up and over over the bridge...
