

# Dance Your Cares Away

## Mis-Teeq

Keep you bubblin' every day and every night  
We don't wanna see you argue, fuss and fight  
All we wanna do is dance and feel the vibe  
Make you feel niceDJ take back this track  
Hit them again, the reaction is phat  
Hit them again, are you feeling that?  
Music is life, it's a natural factThe people with the power, they make you feel poor  
I wanna see the people on the dance floor  
So here I come again with a lyric hardcore  
I know I'm still raw but finding rhymes on deadline is lawTaste entertainment you know you want more  
With the vibing galore upon the dance floor  
The people go mad they make you explore  
Different ways to reach an applauseThis goes out for a worthy cause  
Just move-a ya body, that's what it is for  
Move-a ya body, the crowd's wanting moreYou can't take us away from the music  
Tantalizing you can't refuse it  
Beats b-line, move ya body, don't you lose it  
Dance till the morning comesIt's the weekend, no time for sleeping  
We got ya body rocking  
Move to the track, best believing  
Seeing is believing as I'm riding on this track  
Mis-teeq got the city pon lockSit down pon the riddem 'cos we know how fi rock  
Gridlock, roadblock, the show never stops  
As we take it back just for you my friend  
Rewind fi al the gyal demSometimes just gotta escape  
Stay dreaming when you wake  
No matter come what may  
Turn the music up and dance your cares awayYou can't take us away from the music  
Tantalizing you can't refuse it  
Beats b-line, move ya body, don't you lose it  
Dance till the morning comesKeep you bubblin' every day and every night  
We don't wanna see you argue, fuss and fight  
All we wanna do is dance and feel the vibe  
Make you feel niceSometimes just gotta escape  
Stay dreaming while you wake  
No matter come what may  
Turn the music up and dance your cares awayYou can't take us away from the music  
Tantalizing you can't refuse it  
Beats b-line, move ya body, don't you lose it
