

# Under the Blacklight

[Rilo Kiley](#)

when you get sober  
will you get kinder  
cause when you get uptight  
it's such a drag when I get older  
i won't remember  
until that day comes  
i've got something on you under the blacklight  
out in the garden  
into the pale moon  
i'll be waiting under the blacklight  
under the blacklight even dead men  
lie in their coffins  
it's been a long time  
since you felt better under the blacklight  
out in the garden  
into the pale moon  
i'll be waiting under the blacklight  
out in the garden  
into the pale moon  
under the blacklight somewhere in Laredo  
borders a soft man  
like a black widow  
i'll be crawling under the blacklight  
out in the garden  
into the pale moon  
under the blacklight down in the valley  
up in the dark blue  
under the blacklight  
under the blacklight
