

The Bruises On Her Heart

Weaselhead

she said she loves him in light of, in spite of, insane and in pain
nothingâ€™s the same
she stayed beside him and lied with him, cried with him, died every time
soon heâ€™ll be mine

she said that nothing is over now
she said that nothing is over now
she said that nothing is over now
she said that nothing is over now

she said he loves her and cares for her, cares for her, only for her
only for her
and when she fades it and shades it and blades it insane and in pain
nothingâ€™s the same

sheâ€™ll say that nothing is over now
sheâ€™ll say that nothing is over now
sheâ€™ll say that nothing is over now
sheâ€™ll say that nothing is over now

and she can never hide the marks
and she can never hide the bruises on her heart
and she can never hide the fact she played a part
