Scream

Chris Cornell

I take a minute to tell you right And you can say what you want And turn around every night

Somehow you're always going offDoesn't matter what I done

Or if I even crossed the line

You start to holler, going for blood

Girl, it doesn't have to be a fightThrowing out the blame when you know it ain't my fault

Messing with my brain when you wanna see me fall

There may come a time when I don't bother you at all

It isn't my call, it isn't my callHey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head? There's no need to scream, baby
I'm standing right in front of your face

Why? I know sometimes we don't get along

So Chris sing the second verse to her, like this Take a minute to tell you now

And I don't have to raise my tone

Take the level and bring it down

I just want you to knowI got no trouble with what you said

I don't even think you're wrong

It's how you say it, you lose your head

Girl, I'm standing right in front of youThrowing out the blame when you know it ain't my fault

Messing with my brain when you wanna see me fall

There may come a time when I don't bother you at all

It isn't my call, it isn't my callHey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head? Silence is golden

I used to think that silence was golden

Silence is golden

I used to think that silence was goldenSilence is golden

I used to think that silence was golden

Silence is golden

I used to think that silence was goldenHey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head?

I said hey, why you keep screaming at the top of your head? Silence is golden

I used to think that silence was golden

Silence is golden

I used to think that silence was golden
