NoMeansNo

Ready or not
Eehaw, looks kile I got a datem boysYou end with an ear if you start with a sound
Break in a circle that comes never round
Opened my eyes to see the light
There you were to my delightHair in your nose and frost in you brow
You looked like a bear but you smelled like a cow
You made me meal of milk and wheat
I opened a vein and bled to your feetVariety, variety, that what I like to see
Joy the world you dirty old bag
This is the best time I ever had
One day was an eternity
Here to the years that you gave to meHere to the rain that flatters my hair
Here to the smell of smoke in the air
Here to the straw where I make my bed
Here to the hole where i lying deadReady or not
What I like is the incredible variety
Ready ?no, no, no
Ready or not
