

Lean on Me

Telekinesis

Oh, how I wish you would wear that dress
Going berry-pickin' so don't wear your best
But, I know that you're the one We could cross the country in our beat up truck
Stopping every minute 'cause the thing don't run
But I don't care, 'cause we're in love Let's get, let's get away in the night
I know you count on me
Well, just lean on me, lean on me anytime Made it to Montana in about three days
Looking for our homestead in the prairie-sways
And we'll build there, we'll make it right Roundin' up the cattle and the bales of hay
Days were so much slower, as our time replays
And we'll stay there, lovin', and lovin', and lovin', and lovin' Let's get, let's get away in the night
Let's get, let's get away in the night
Let's get, let's get away in the night I know you count on me
Well, just lean on me, lean on me anytime
