

# Muscle for Brains

## Gang of Four

Don't help me I can save myself  
If I'm incomplete don't fill the gaps  
Save me from the people who would save me from myself  
They got muscle for brains For reasons that are not mysterious  
The weak are sent to the wall  
They have reservations in heaven  
Down here they're not so fashionable Don't help me I can save myself  
If I'm incomplete don't fill the gaps  
Save me from the people who would save me from my sin  
They got muscle for brains For reasons that are not mysterious  
Morality's used as a tool  
The poor are told to be contented  
But in this life they've no choice at all Don't help me I can save myself  
If I'm incomplete don't fill the gaps  
Save me from the people who would save me from myself  
They got muscle for brains For reasons that are not mysterious  
The weak are sent to the wall  
They have reservations in heaven  
Down here they're not so fashionable Don't help me I can save myself  
If I'm incomplete don't fill the gaps  
Save me from the people who would save me from myself  
They got muscle for brains Save me from the people who would save me from my sin  
They got muscle for brains
