

Made to Be Together (feat. Jasmine Commerce)

Jackson Price

When I'm with you, my heart feels alive
But when you're gone, this pain I can't describe
Tonight my heart will break, as I lay awake
Dreaming of the day that you'll be mine(Chorus)
'cause I was made for you
and you were made for me
and we were made to be, together
and we were made to be, together I'm warm and bright, when you hold me tight
But cold and lonely nights have such a chill
I shiver and I shake, but my heart will never ache
Dreaming of the day that you'll be mine(Chorus)
'cause I was made for you
and you were made for me
and we were made to be, together
and we were made to be, together(Bridge)
You went and took my breath away, when I had so much left to say
So let me try and get this off my chest
I had almost given up, until you helped me fall in love
And now I need you here and nothing less(Drop Chorus)
'cause I was made for you
and you were made for me
and we were made to be, together(Chorus)
'cause I was made for you
and you were made for me
and we were made to be, together
and we were made to be, together
and we were made to be, together
