Why (Magistral)

Pandora

I should have known
Everything must come to an end
A broken heart
And it's never goin' to mend
Like autumn leaves
I fade away from you
My winter came
When I had to go
Why why why why
Did you ask me to leave
Why
When I started to believe
The only thing
That we still are ment to share
The loneliness
And it's deep collectin' my tears
Like autumn leaves
I fade away from you
My winter came
When I had to go
Why why why why
Did you ask me to leave
Why
When I started to believe
Why why why why
Did you ask me to leave
Why
When I'm all you ever need
I did believe in our love so strong
We fell in love,
don't know what went so wrong
Why why why why
Did you ask me to leave
Why
When I started to believe
Why why why why
Did you ask me to leave
Why
When I love you endlessly
