

Transmission Home

Yellowcard

I'm here reaching out again,
Lead into the wind on my knees
My fear is a memory
It's a reverie and I'm free Oh, I wanna take this crown from my head,
Oh, I wanna build something with my hands I will send a transmission home
To say that I've been out here too long alone
And I wanna come down now
I will send a transmission home
To say I should have called in so long ago
And I wanna come down Life comes at the speed of light
But there's a place in time for me when
Love runs into every day,
Over every place that I've been Oh, I wanna wipe these stars from my eyes,
Oh, I wanna search and see what I find I will send a transmission home
To say that I've been out here too long alone
And I wanna come down now
I will send a transmission home
To say I should have called in so long ago
And I wanna come down Oh, oh
Oh, oh
Oh, oh
Oh, oh
I will send a transmission home
To say that I've been out here too long alone
And I wanna come down now
I will send a transmission home
To say I should have called in so long ago
And I wanna come down now
