

# Moony Eyed Walrus

## Cayucas

[Verse 1]

Cosmonaut, the ruined lighthouse,

A lantern lit,

Goodbye, moony eyed walrus.

Large, fanged teeth,

He talked about the sea,

"Neath the willowy marsh, it was you and I." [Pre-Chorus]

Off into the hills

I'm amongst the branches of the trees

Casting shadows on those below

Dark and dingy, [?][Chorus]

From the edge of the cliffs above the trees,

I believe, I believe, I believe, oh!

See the bottom of a murky sea, you see

Deeper and deeper!

Up the planks of the ladder, one by one.

I wanna see, I wanna see, I wanna see, oh!

Where the dreams you dreamt get bigger and bigger. [Verse 2]

Swords, ice plant-like,

The back of a stegosaurus,

And your arms are tired,

Sand dunes are spiking up,

The brights are brighter,

The heights are so much higher. [Verse 3]

Drippy eyed goon looking oddly ferocious,

His giant eyes are bulging from his head.

The batwing cave and a poisonous face

Stuck in the darkness

We'll try not to wind up dead. [Pre-Chorus] / [Chorus] [Bridge]

(a lot of "Woah") [Pre-Chorus] / [Chorus] / [Chorus]
