Morning After

Kenny Neal

One, two, three, and...
So sick last night, I didn't hardly know my mind
So sick last night, I didn't know my mind
I had a drink of bad liquor, almost made me blind

I had a dream, I thought I was in hell
Yeah I had a dream, thought I was in hell
But baby when I looked around, your mouth was open like a well

I said baby baby, please don't snore so loud
Say baby baby, please don't snore so loud
Say you're just a little bit o' woman, you sound like a great big crowd
