

My Blue Wave

Lambchop

You lay around the house
Nothing much to bark about, jump onto the bed
Just bones and squirrels inside your head
This is the only life I see for you And if I gave a crap than show you where my head is at
I would ride the moon and even if it comes too soon
I could fall for you and you could fall for me So we go all to the shows
And happiness is all we know
How it got to you and how it got to me too
I wish I never knew about my blue wave And William called and tried to tell me
That his sister's boyfriend has just died
He's not sure what to do
And I'm not sure what to tell him he should do
Sometimes William, we're just screwed in my blue wave So what's the girl to do who sits on the couch
And she's feeling blue
Shakes it in the cup and she doesn't mind if it stays up
Up, up, oh yeah, never mind the world, my blue girl And the best is yet to come
You may think you are the only one
To never get it right just stick around on this lovely night
And we may be amazed by my blue wave To conclude this interview
Many facts and fictions you construe
The dog gives you the paw
And you pat his head and you wipe his jaw
He's the only one who knew about my blue wave
My blue wave, my blue wave
