Lefty Was Right After All

Gerry Guthrie

I can still remember when Lefty sang his songs
He sang about the heartache that comes when all goes wrong
I knew every song he sang Lefty was my man
But i was young and carefree and I did not understand

Hey I was still in high school thought the world was mine
I didn't have much money but I had a lot of time
I found myself a sweetheart and I was walking tall
Lefty tried to warn me I was headed for a fall

Hey Lefty was right after all
I've had my share of heartaches big and small
I've walked the road of broken dreams from here to Saginaw
Lefty was right after all

Just like Lefty told me I had those travelling blues
That's the way love goes you see Lefty spoke the truth
Lord I should have listened to what old Lefty said
While I was playing with my heart I went and lost my head

Hey Lefty was right after all
I've had my share of heartaches big and small
I've walked the road of broken dreams from here to Saginaw
Lefty was right after all

Hey Lefty was right after all
I've had my share of heartaches big and small
I've walked the road of broken dreams from here to Saginaw
Lefty was right after all

Yes Lefty was right after all
