

Since (Instrumental)

Blu

It's been a minute since we been here,
Sincere six year
First string, dream team, keep your bench cleared,
Pristine like I'm Nick Teen's rich dreams
Switch scenes now I'm on some other shit deal
Diss queers cause I ain't one, play dumb
Girls know I've got a great tongue
Laying the moves down
The crown, the jewels, the pounds, and styles I got
Miles like mules
48k till I break, that's gold chain mind state
Grind like it's cool but it ain't
I make moves and shape
Shoes be paying dudes steps, brews bathe
The cooze is crazy in the movies
Some ladies, thick as gravy,
In the groove shakin' it
Making a boo
Mooks, milks
Here for the body too and,
Built but I built the kingdom to rule
Hold hand got ring from the jeweler, championship shit
From the city of the sunshine, punchline
Up and at them eat them each by lunchtime
One time tried the lot, nigga, couldn't knock me
Did a little bit but I got free
Now I'm on the block bustin' hot, freeze!
Trust GodLee, chop beats 5 G's a piece, capisce?
I don't need no peace to work,
I bought a piece so I don't need to work,
It's crazy how mean streets be
Do my dirt I bought my loan leader
Mad cause I'm making money at home, beatin' her
Been there, smoked squares at the clubs with you
Been care, Hollywood fan functions, yea
Family friends, the funds,
The fun never ends let the madness begin again
I ain't even speaking on women-friends
Cause you here them speaking on me to their mistresses

Call girls, phone bill's through the roof, huh?
On the move, huh, watch how he move up
Scoop me up in an old whip,
Bumpin' some old shit, he on some new shit, huh
