

Fuel

Catatonia

Go tell the captain
There's no waters left to navigate
I sailed them all for youGo tell the engine room
Stop stoking up the fire
We're out of fuelDoom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracyWe'll build new ring roads
To go nowhere in particular
Now you've passed your Highway CodeAnd make new inroads
Into plundering the Earth
For some more fuelDoom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracyGo ask the Government
You voted in on trust
Where is our fuel?Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracyDoom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy
