

# May I Miss You

## Family of the Year

May I miss you  
May I sing a song in your name  
For I leave this morning  
Never to come back this way  
Think of me when your head sleeps on your pillow  
For our guns will well be drawn in the sunset fire at fall  
May I think of you  
Will you help me through  
May I miss you  
Cast off your doubts till they march you away with me  
Four long winters since my bed is in company  
Think of me being active, lost and lonely  
For I've been through this before  
And I've lost my heart and more  
I won't do it again  
I can't lose another friend  
May I miss you  
I've lived my life in the sun  
I've lived my life so hard  
I lived my life and I'll die  
'cause everything dies  
But it don't seem right  
May I miss you  
(May I miss you)  
May I sing a song in your name  
(Tell me so I know)  
For I leave this morning  
(Leave this morning)  
Never to come back this way  
(Now I'll never go)  
Think of me being active, lost and lonely  
(Won't you tell me so I know)  
For I've been through this before  
(Been through this before)  
and I've lost my heart and more  
(Lost my heart and more)  
I won't do it again  
I can't lose another friend  
May I miss you  
I've lived my life in the sun  
I've lived my life so hard  
I lived my life and I'll die  
'cause everything dies  
But it don't seem right  
Before the week I'll try  
To leave something to remember me by  
It's so much better when it, it lasts forever  
Easy to say goodbye  
I've lived my life in the sun

I've lived my life so hard  
I lived my life and I'll die  
'cause everything dies I've lived my life in the sun  
I've lived my life so hard  
I lived my life and I'll die  
'cause everything dies  
But it don't seem right
