

Loretta

Nazareth

Lovely Loretta, I'd like to know you better
Sure would like to know what's goin' on in your head
Sweet juicy Lucy, go crazy if you choose me
Sure would like to help you, stop fallin' outta your bed
Lovely Loretta, you know I'm scared to bet you
I don't know if I went, if I'd win or I'd lose
Stronger tha whiskey, you got to be a frisky
But you got something I'd really like to use
Lovely Loretta, I saw you in a magazine
Set my details to the gettin' scene
Lovely Loretta, your picture's always near to me
Helps to make my dreams reality
Lovely Loretta, you know I've got to get you
You know that it's only a simple matter of time
Save my sanity, oh girl you gotta use me
Loretta come and help me, stop goin' out'a my mind
Loretta come and help me, stop goin' out'a my mind
