Coming out I'm deep in doubt I'll meet you
Calling out it's always with a stare
I can't give you less than what I mean to
I'll pretend that I don't see you, babyI wanna know
I wanna go
I'm all alone
I wanna knowYou place a friend I'm overwhelmed I need to
Fear is good you understood it wrong
Box is overflowing and I see you
Feeling is I can't be friends for longI wanna know
I wanna go
I'm all alone
I wanna knowI know it, I know it for sure
I'll blow it, I know it, it's her
Did I show you a compass of ?
I'll know it
I'll know itI wanna know
I wanna go
I'm all alone
I wanna knowCalling out
Come and take it back and you know where
Call your friends, it all depends on me to
Call me back get on track I swearI wanna know
I wanna know
