Is This The End

New Edition

Is this the end?
Are you my friend?
It seems to me, you ought to be free
You used to be mine when the chips were down
You used to be mine when I weren't around
Girl, can't you see how I feel?
All these feelings that I feel are real
Oh, girl, can't you see I need you?Is this the end?
Are you my friend?
It seems to me, you ought to be free
You used to be mine when the chips were down
You used to be mine when I weren't around
Girl, can't you see how I feel?
All these feelings that I feel are real
Oh, girl, can't you see I need you?Aw, baby, is this the end?
Aw, baby, is this the end?Mama told me one day it was gonna happen
But she never told me when
She told me it would happen when I was much older
Wish it would've happened then
Mama told me one day it was gonna happen
But she never told me when
She told me it would happen when I was much older
Wish it would've happened then
